## Model 6232A
Modular Test Probe with Standard 0.080 (2mm) Tip

PROTECTIVE CAP

FEATURES

- Modular designed for use with Pomona CE test lead sets, or any other modular test leads with a CE safety style sheathed banana jack.
- Notched .080" (2mm) probe tip; notch near probe tip end helps keep probe from sliding off test points.
- Probe tip mates with 0.080 (2mm) pin tip jacks.

MATERIALS

Probe Body: Black or Red Polypropylene
Tip: Nickel plated brass, notched .080" (2mm) tip
Jack: Nickel plated brass, .166" (4mm) safety style sheathed banana jack
